

MANUFACTURING OF BOXES FOR LITHIUM-ION BATTERIES

We manufacture durable battery boxes with custom-designed and engineered solutions for lithium-ion battery systems. Our designs ensure high safety, impact resistance, and long-lasting performance, providing reliable protection for your batteries.

GÖKSUN
POWERBOX

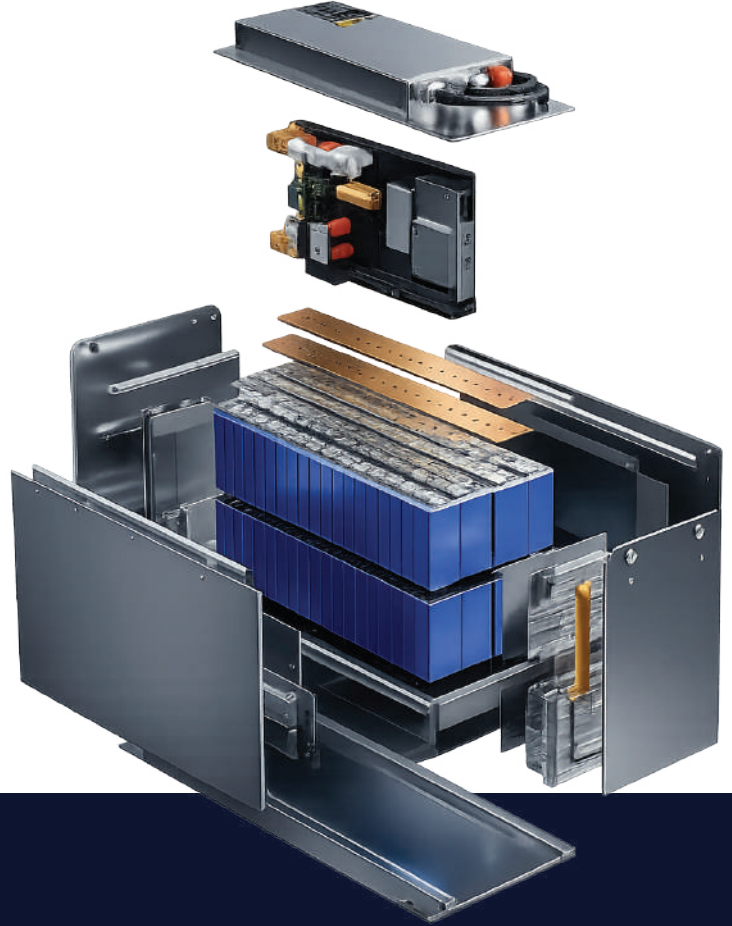

ROBUST PROTECTION, SECURE ENERGY SYSTEMS

We manufacture high-strength, safe, and long-lasting box solutions for lithium-ion battery technologies. Our custom designs, developed to meet industrial application requirements, combine maximum protection, high strength, and an aesthetic approach to manufacturing.

Our lithium-ion battery boxes, manufactured with project-specific dimensions and engineering support, offer superior resistance to impacts, vibrations, temperature fluctuations, and harsh operating conditions. Thanks to our modern production infrastructure, we provide customized solutions tailored to the needs of various industries.

APPLICATIONS

- ✓ **Pallet jack and forklift battery cases**
- ✓ **Custom housing solutions for AGV/AMR systems**
- ✓ **Industrial boxes for energy storage systems**
- ✓ **Manufacturing of protective boxes for telecommunications and UPS systems**
- ✓ **Custom designs for solar and mobile energy systems**
- ✓ **Lithium-ion battery boxes for rail systems and logistics applications**

High-strength steel structure

Custom sizing and manufacturing

Heat- and impact-resistant construction

Long service life for industrial use

Design optimized for safe use

Electrostatic industrial powder coating

LITHIUM-ION BATTERY BOX SOLUTIONS

The box solutions we have developed for lithium-ion battery systems combine safety, durability, and functionality in a single design. By adhering to high-quality standards in every project, we provide services based on a commitment to long-lasting and reliable production.

PRODUCT FEATURES

High-Strength Steel Construction

Its robust construction, designed for heavy-duty industrial conditions, ensures long-term durability.

Heat and Impact Resistance

It reliably protects battery systems from external factors in demanding work environments.

Security-Focused Design

It offers engineering solutions optimized for battery safety and system integrity.

Custom Manufacturing

Production can be customized to meet specific needs, including custom dimensions, connection configurations, and internal layout options.

Suitable for Industrial Use

It delivers maximum performance and durability in industries that demand heavy-duty use.

Electrostatic Powder Coating

It provides high-level surface protection against corrosion, wear, and environmental factors.

WITH OUR HIGH-QUALITY AND SAFE PRODUCTS THAT MEET INTERNATIONAL STANDARDS, WE ARE THE LEADING SUPPLIER TO EXPORT COMPANIES...

RELIABLE INDUSTRIAL SOLUTIONS

With our modern production infrastructure and engineering-focused approach, we manufacture durable, safe, and high-performance battery boxes for industrial battery systems. Quality, safety, and longevity are our top priorities in every project.

GÖKSUN
POWERBOX

DURABLE AND RELIABLE SOLUTIONS FOR TRACTOR BATTERY BOXES

Traction batteries are widely used in forklifts, warehouse systems, and industrial transport vehicles. We manufacture high-strength, long-lasting, and safe battery cases for the batteries used in these systems.

GÖKSUN
POWERBOX

ROBUST PROTECTION AND LONG-LASTING PERFORMANCE IN TRACTION BATTERY BOXES

We manufacture high-performance, safe, and long-lasting battery boxes for traction batteries used in industrial vehicles and energy systems. Designed to withstand harsh operating conditions, our solutions combine durability, functionality, and safety.

APPLICATIONS

- ✓ **Battery-powered pallet trucks and forklift systems**
- ✓ **Floor cleaning and industrial cleaning machines**
- ✓ **Personnel lifts and platform systems**
- ✓ **Reach trucks and specialized handling equipment**
- ✓ **Airport vehicles and specialized equipment**
- ✓ **Energy storage systems in base and power stations**

High-strength steel structure

Acid-resistant thermoplastic coating

Long-lasting and safe for daily use

Production suitable for demanding working conditions

Custom sizing and design options for the project

TRACTION BATTERY SYSTEMS

Battery boxes play a critical role in ensuring the safe and long-lasting operation of these systems. The battery boxes we manufacture protect the battery from impact, vibration, and external factors, ensuring maximum performance and operational continuity.

PRODUCT FEATURES

High-Strength Body Structure

Thanks to its sturdy steel construction, it offers superior resistance to impacts, vibrations, and heavy use.

Custom Manufacturing

It offers custom manufacturing options with various sizes, connection types, and internal layouts to meet specific needs.

Designed for Harsh Conditions

It is optimized for safe use in heavy industry, warehouse, and field environments.

Long-Lasting Use

Thanks to its high-quality construction and protective surface treatments, it offers a long service life.

Acid-Resistant Coating

It offers high protection against chemical exposure and corrosion thanks to its special thermoplastic coating system.

ROBUST ENGINEERING AND RELIABLE SOLUTIONS IN BATTERY BOX MANUFACTURING

Our company is an engineering-focused manufacturer of high-strength battery boxes for lithium-ion and traction battery systems. Safety, durability, and long-term reliability are our top priorities in our manufacturing processes.
